

Hartford Water Utility

2019 Fire Hydrant Flushing Schedule

All flushing takes place between
the hours of 7 AM and 3 PM

South of Hwy 60

April 29 through May 17

North of Hwy 60

May 20 through June 7

During this period of flushing some customers may experience rusty water. This rusty condition will correct itself if the faucet is allowed to run for a short period of time. Rusty water will discolor clothes that are washed or rinsed in it. We ask that you refrain from washing clothes during the scheduled hours.

Since flushing of mains is necessary maintenance for our water system, we earnestly solicit your cooperation during this period of temporary inconvenience.

If there are any questions or concerns, please contact our office at 262-670-3710.
