

PUBLIC WORKS COMMITTEE

January 25, 2022

6:40pm

PRESENT: Alderpersons Carroll, Fulop, Garza, Hegy

ALSO PRESENT: City Administrator Volkert, City Engineer John Griffin

Call to Order – Alderperson Hegy called the meeting to order at 6:40 p.m. in the Common Council Chambers of Hartford City Hall, 109 North Main Street.

Roll Call – All members of the Committee were present.

Public Comment Period – No public comment.

Engineering and Stormwater Program updates:

- Harker Avenue Reconstruction – Will begin late March or early April
- Centennial Park Bulkhead Wall – Currently in permitting, permits should be issued by mid-February. Wondra Construction would like to get started drying down the Mill Pond in July or early August
- Harrison Street Reconstruction – Bids should be going out March 1st so that the project can be awarded in April and begin work as soon as possible thereafter
- Landfill Monitoring – Summer and winter monitoring is scheduled, wells were given new locks, relabeled and some were abandoned
- Sidewalk Program – In the Kennedy Drive neighborhood, most sidewalks appear to be eligible for shaving. The DNR has suggested different ways to mitigate the problem of damage caused by tree roots
- Seal Coating – Work is being done to compile the short list of streets that are in need of seal coating
- Asphalt Paving Program – The short list is being compiled for this project as well, there may also be some additional funds available through the DOT to assist with this project
- Teri Ln Sidewalk – There should be some progress on this project before the end of the year, even with some litigation remaining
- Stormwater Project – The DNR is pushing for full compliance for permits, which will involve a lot of time and money. There will need to be 2 ponds constructed in order to be fully compliant and the tentative plan is to place them near Innovation Way. However, that is the area where a new housing proposal is coming together, so that is why it is tentative
- Dodge Industrial Park (Housing, Roads, Utilities) – Working to support the Housing Development proposal
- Mill Pond Pedestrian Bridge Approaches – Work will start in the spring, coinciding with the bulkhead wall project
- Mill Pond Dam Inspection and Concrete Repairs – Will take place while the Mill Pond is emptied, concrete repairs will be completed before the pond is re-flooded
- 28 S. Main St (Dry Cleaner Site Evaluation) – Trying to align this project to utilize Washington County's EPA grant money to complete this project
- Union St & N. Wilson Ave Intersection/S. Main St Reconstruction – Both of these projects were just awarded to Stantec

Public Works Committee (01/25/2022)

- W. Rossman St & E. Wisconsin St – M2 has been asked to evaluate this project as their evaluation of the previous project was the same as Stantec. This is preparation for anticipated infrastructure funds that may be coming in the future
- E. Loos St Reconstruction – Will be completed in-house as the next reconstruction project

Adjournment – Alderperson Hegy declared the meeting adjourned at 6:58p.m.

Respectfully submitted,
Lori Hetzel, City Clerk
