

"I thank you for your great care with my
the gentleman who had a bicycle accident on
SBS18. He truly received expedited police
service! It was very humbling to watch
your swift action in getting information
and getting the man cared for before the
EMS personnel came! I was holding the
man's hand while one of the two of you
(forgive me for not catching your names) held
his head still while he became more aware of
what was happening! You did a great job
reassuring him and redirecting him so he
wouldn't touch his bloodied face. While watching
you both call for assistance and care for
that man I felt proud to be a part of
your community! Thank you for doing such
an amazing job. Even though this may seem
like "just another day," to me it certainly
was not.

from U | G's Sincerely,
Tracey Maszka
PS. my daughter helped design the food, so I hope it
brings some cheer.
