

To the 2 officers that helped  
my family on Saturday evening,  
Thank you from the bottom of  
my heart.

We experienced a flat tire while  
pulling our boat. Our option was  
to stop in the Middle turn lane  
in front of Timlin's Furniture.

Incredibly scary & frustrating having  
my husband working on the tire  
while traffic continued to fly by -  
not willing to move lanes or slow  
down. Too many stories of bike  
riders; walkers being struck.

Thank you for positioning yourselves

in both lanes to ensure our  
safety.

For the time you give,  
the hearts you warm,  
the smiles you make —  
you're appreciated.

To your entire department,  
Thank you for all that you  
do!

Your job is often thankless -  
But know that you all remain  
in our prayers daily and

have our continued thanks.  
Sincerely,
