SEWER METERING

Municipal wastewater volume charges are based upon metered water volumes. No adjustment of any kind is allowed for water volumes not treated by the Wastewater Utility, unless a secondary water meter is installed.

Customers wishing to avoid Wastewater Utility charges for municipal water not treated by the Wastewater Utility may permanently install a secondary water meter (a.k.a. deduct meter) per instructions available from the Hartford Water Utility. The cost of the secondary water meter and installation is the responsibility of the customer. The meter must be installed by a licensed plumber and inspected by the Hartford Water Utility prior to use. A secondary water meter is subject to an additional monthly service charge equal to the monthly service charge of the primary water meter, regardless of water volume measured.
